Exam : **070-695**

Title : Deploying Windows Devices
and Enterprise Apps

Vendor : Microsoft

Version : DEMO

NO.1 After the planned migration, you need to gather data from the client computers on the Contoso network.

Which is the best account to use to achieve the goal? More than one answer choice may achieve the goal. Select the BEST answer.

- A. Fabrikam\Administrator
- B. Contoso\Administrator
- C. Fabrikam\User2
- D. Fabrikam\User1

Answer: C

NO.2 You have a client computer named Computer1 that runs Windows 8.1 Enterprise. You install the Windows Assessment and Deployment Kit (Windows ADK) on Computer1. You sign in to Computer1 as a local user named User1. You insert the Windows 8.1 installation media into the DVD drive on Computer1.

You need to use Windows ADK to create an answer file for the deployment of Windows 8.1 Enterprise.

What should you do first?

- A. From Windows PowerShell, run Copy-Item
- B. From Windows System Image Manager, click Import Package(s).
- C. From Windows System Image Manager, click Create Configuration Set...
- D. From Deployment and Imaging Tools Environment run dism.exe and specify the Mount-Wim parameter.

Answer: A

Explanation:

You need to copy the Windows base-image file from the DVD to the local hard disk.

NO.3 You need to recommend a solution for activation.

What should you include in the recommendation?

- A. a Multiple Activation Key (MAK) proxy on a domain controller in the Paris office
- B. a cross-forest trust relationship
- C. Active Directory-Based Activation (ADBA) in the fr.proseware.com forest
- D. a service location (SRV) record in the fr.proseware.com domain

Answer: D

NO.4 DRAG DROP

You are planning the deployment of new applications for users in several departments.

You have three user groups.

The groups are shown in the following table.

Group	Restrictions
Finance	The client computers in the finance department are very old. There are no plans to upgrade the computers. The finance department computers may not have sufficient hardware resources to run some of the new applications.
Research	An application for the research department must be tested locally without disrupting the operating systems of the research department client computers.
Human resources	An application for the human resources department must run only when the client computers in the human resources department are connected to the internal network. The application must be executed locally.

You need to identify the appropriate application delivery method for each department. Which application delivery methods should you identify? To answer, drag the appropriate application delivery methods to the correct departments. Each method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Delivery Methods

- Client Hyper-V
- Installed locally
- Microsoft Application Virtualization (App-V)
- RemoteApp program

Answer Area

Finance: Delivery method

Research: Delivery method

Human resources: Delivery method

Answer:

Delivery Methods

- Client Hyper-V
- Installed locally
- Microsoft Application Virtualization (App-V)
- RemoteApp program

Answer Area

Finance: RemoteApp program

Research: Client Hyper-V

Human resources: Microsoft Application Virtualization (App-V)

NO.5 You need to meet the application requirements for Server1 and Server2.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

- A. Create a selection profile.
- B. Create a deployment database.
- C. Create a linked deployment share.
- D. Modify the deployment share properties.
- E. Create a new image group.

Answer: B,D

NO.6 You need to recommend a solution to generate a report for the client computers in the Paris office.

What should you include in the recommendation?

- A. Deploy the Configuration Manager client.
- B. Install and configure the Microsoft Deployment Toolkit (MDT).
- C. Install and configure the Microsoft Assessment and Planning (MAP) Toolkit.
- D. Install and configure the Windows Assessment and Deployment Kit (Windows ADK).

Answer: C

NO.7 You need to identify the correct configuration pass to modify in an answer file for the client computers in the Paris office.

Which configuration pass should you identify?

- A. auditUser
- B. generalize
- C. offlineServicing
- D. oobeSystem

Answer: D

Explanation:

References: [https://technet.microsoft.com/en-gb/library/cc749307\(v=ws.10\).aspx](https://technet.microsoft.com/en-gb/library/cc749307(v=ws.10).aspx)

NO.8 DRAG DROP

Your network contains one Active Directory domain named contoso.com. The domain contains the servers configured as shown in the following table.

Server name	Role
Server1	Microsoft System Center 2012 R2 Configuration Manager site server
Server2	DNS server providing external name resolution for contoso.com
Server3	Enterprise certification authority (CA)

All contoso.com clients are allowed access to cloud-based distribution points.

You need to deploy a cloud-based distribution point.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- On Server1, export the CER files.
- On Server2, create an alias (CNAME) record.
- On Server2, create a text (TXT) record.
- On Server1, request two certificates for server authentication.
- On Server1, export the PFX files.
- On Server1, run the Create Cloud Distribution Point Wizard.

Answer Area

Answer:

Actions

- On Server1, export the CER files.
- On Server2, create an alias (CNAME) record.
- On Server2, create a text (TXT) record.
- On Server1, request two certificates for server authentication.
- On Server1, export the PFX files.
- On Server1, run the Create Cloud Distribution Point Wizard.

Answer Area

- On Server1, request two certificates for server authentication.
- On Server1, export the PFX files.
- On Server1, run the Create Cloud Distribution Point Wizard.
- On Server2, create an alias (CNAME) record.

NO.9 Your company has 1,000 users. Ten percent of the users work from home and connect to the corporate network by using a VPN connection. All of the users have client computers that run Windows 7 Enterprise.

You have a file server named FS1.

You plan to perform new installations of Windows 8.1 Enterprise on all of the client computers. You will preserve existing application data and user settings.

You need to recommend a solution to migrate application data and user settings. The solution must minimize hard disk space usage and network traffic.

What is the best recommendation to achieve the goal? More than one answer choice may achieve the goal. Select the BEST answer.

- A. For all of the computers, use a USB disk as a compressed migration store.
- B. For all of the computers, use a hard-link migration store.
- C. For the computers of the users who work from home, use a USB disk as a compressed migration store. For all other computers, use FS1 as a compressed migration store.
- D. For the computers of the users who work from home, use a hard-link migration store. For all other computers, use FS1 as a compressed migration store.

Answer: B

Explanation:

References: [https://technet.microsoft.com/en-us/library/dd560753\(v=ws.10\).aspx](https://technet.microsoft.com/en-us/library/dd560753(v=ws.10).aspx)

[https://technet.microsoft.com/en-GB/library/dd560795\(v=ws.10\).aspx](https://technet.microsoft.com/en-GB/library/dd560795(v=ws.10).aspx)

NO.10 DRAG DROP

You deploy the Microsoft Deployment Toolkit (MDT) to a server named Server1.

You plan to deploy Windows 8.1 Enterprise to client computers by using MDT.

You also plan to deploy two applications named App1 and App2.

You need to ensure that all of the client computers install App1 as part of their deployment of Windows 8.1 Enterprise.

The solution must provide users with the ability to choose to install App2.

Which three actions should you perform in sequence? To answer, move the appropriate actions from

the list of actions to the answer area and arrange them in the correct order.

Actions

- Modify Customsettings.ini.
- Create a task sequence.
- Modify the properties of App1 and App2.
- Add a task sequence variable.
- Add App1 and App2 to the task sequence.

Answer Area

Navigation icons: > < (between lists) and ^ > (within list)

Answer:

Actions

- Modify Customsettings.ini.
- Create a task sequence.
- Modify the properties of App1 and App2.
- Add a task sequence variable.
- Add App1 and App2 to the task sequence.

Answer Area

- Create a task sequence.
- Add a task sequence variable.
- Add App1 and App2 to the task sequence.
